

# DESPERADOS III

## Patch 1.3 Notes

### New Content

Added 4 brand-new Baron's Challenge missions:

- **Three Men with No Name:** Where is Waldo? Identify three specific guards among the crowd of supposed doppelgangers on the map – and kill them!
- **Bear Trap Triplets:** We all know how much Hector loves his little Bianca. One can only imagine what he could with three of them... why not put it to a test?
- **Best Served Cold:** Some poor guy didn't know who the Baron was and cheated him. The Baron wants him found in a crowded market place and brought to the docks – dead or alive.
- **Rescue Aid Society:** Alas! Doc McCoy is being held prisoner in the bayous. Isabelle's cat Stella, a dog and a chicken have formed a special animal commando to rescue the Doc.

### Bug Fixes & More

- **Minor stability improvements:** We made further optimizations to improve the overall stability of the game.
- **Showdown Mode Fixes:** We got a few reports from users about different Showdown Mode issues. Most of them should be resolved now.

### Known Issues

- **Three Men with No Name:** The player can deliver the Dentist to the coffins as one of the missions targets. The game will falsely accept him as a mission target.
